Whether due to climate change, for financial reasons or simply for the sake of the technology – the demand for E-cars is increasing constantly and therefore the need for sufficient charging opportunities.

In order to remain up-to-date and cutting edge, we recommend addressing the charging infrastructure issue early. We are happy to support you in the following areas:

- Energy supplier
- Independent charging station providers
- Cities and municipalities
- Bricks and mortar retail, e.g supermarkets
- Hotels and restaurants
- Parking-space operators

As well as with other companies from various sectors who would like to offers their customers and employees charging facilities for e-cars.

Whether you are a charging station operator in private or public spaces, an electricity supplier or an external service partner: THOST Projektmanagement offers you expert consultancy and support in the planning and implementation of your charging infrastructure projects.

Profit from our experience and together we will lead your project to success.
