ABOUT THOST.

THOST Projektmanagement GmbH is one of the leading companies in project management with approximately 800 employees at 29 sites worldwide.

For over 35 years, the Pforzheim-based family-led business has been coordinating and managing the development, planning, and realisation of complex projects in the fields of real estate, infrastructure, plant engineering, and energy. These include office and campus projects, working environments, laboratories, healthcare buildings, research projects, residential construction, hotels, schools, logistics and trade, production, commercial construction, data centers, and many more.

Our customers include domestic and international clients from industry, commerce, trade, churches, and the public sector.
